

# BonFlash strobe beacon

Reasonably priced strobe beacon as accessory to control units for sewage treatment plants

## Why use the BonFlash strobe beacon?

- Outstanding price-performance ratio
- Suitable for any alarm indication including mains failure
- No extra (rechargeable) battery necessary. Due to the very low power consumption, the strobe beacon can be powered by the internal batteries of the control unit at mains failure.
- Easy to connect via two wires (reverse-polarity protected)
- IP 66 - suitable for outdoor installation (sealed with potting compound)
- Solid and easy mounting with a metal hollow screw for fixation

## Technical data

Attribute	Value
Dimensions (l x w x h); weight	102x46x30mm
Ambient temperature	-20°C to +50°C
Protection classification	IP 66
Flash rate	0.05s on - 1.0s off
Luminous color	Red
External power supply	From control unit: 5VDC $\pm$ 10%; 20mA max.; 7mA avg.
Cable length	1.5m
Fixation / Mounting	Bolted on bottom
